

Thank You For My Wife

Words & Music by: Steve Smith (Kermit Stephen Smith) ASCAP

The winter wind was cold on the day God warmed my soul
When I saw her just standing there
I'd given up on love, till a finger from above tapped my shoulder
And I declare

(the Lord said)

This is love now you listen to me
Here's the woman who can love you like
I want you to be loved here on earth
And who'll walk hand in hand in your new birth
Yes I'll teach you to love her just as I love you

Well I've got to say in my own way, "Man lord, you sure can pick'em"
She treats me like a man while helping me to stand on my "own two feet"

(well, the Lord said)

Take her hand, she'll make you the man
I want you to be, oh listen to me
And oh, Lord, I'm glad I did cause
She blesses each new day I live
And she makes each new day with you complete and sweet

Thank you Lord for my wife
